## New surveys!

Our sign: wjg/ab

Bonn, January 2021

Dear participants, dear prospective participants,

the RfB is planning two new surveys. The two surveys include the genomic detection of measles, mumps and rubella viruses combined in one survey and the genomic detection of the toxin genes of *Clostridium difficile*.

We already offering the two surveys for the first half of the year at the beginning of April. Please note the application deadline until 08.02.2021. All planned dates and prices can be found in the tables below.

You are welcome to register for the surveys using the attached application form or via our website as a registered participant.

With the best regards  
On behalf of the RfB Team
